

## SERVICE YOU CAN RELY ON

### Fast Response Times

All of our service technicians are factory-trained and qualified to keep your rental equipment in safe operating condition. On-site Inspection reports are available upon request.

Have security in knowing that our specially trained technicians are ready to inspect, maintain, troubleshoot, repair, and overhaul your Equipment. Our carefully chosen technicians will perform these services at your facility or job site. Whatever is most convenient to accomplish the job at hand.

### Safety First

Safety Training & Classes: At All Access Services, safety is our most important job. We offer Specific JLG Brand Training, on Booms Scissors lifts, and Telehandlers to give your operators the best information to keep them Safe, Compliant and your job Productive. After your operators have completed our Factory On-line E-Training, we offer on-site evaluation at your location. Our training sessions meet the New, OSHA and ANSI Standards and will prepare each operator to get the job done safely.
